Pricing

Packages

Packages are for standard websites, additional elements and software development.

Website Creation

Website creation include design via the WordPress platform, domain purchase for 1 year, hosting for 1-year (including updates of core WordPress files), SSL certificate for 1-year, Google Analytics code added, basic SEO set-up via Yoast plugin, security set up via Wordfence plugin, a WYSIWYG editor enabling client editing via Divi.

Hosting includes domain, core updates, and SSL certificate.

- | | |
|--|----------------|
| • 1-page WordPress website | £650 |
| • 3-page WordPress website | £900 |
| • Addition pages (if 3 pages designed by us) | £50 per page |
| • Year 2+ hosting | £140 per year* |

Additional Plugins

Off the shelf plugins will be loaded, configured and kept up to date, these may be free to use or have a purchase price. Bespoke plugins can be created where none exist.

- | | |
|---------------------|-------------|
| • Additional plugin | £50 + cost* |
| • Bespoke plugins | from £250 |

WordPress Hosting Only

Hosting includes domain, core updates, and SSL certificate.

- Transfer and 1 year hosting £200*
- Year 2+ hosting £140 per year*

Ecommerce Websites

We have 2 offerings.

Firstly, for standard product sales, we offer a WooCommerce website, built on the WordPress platform but with full ecommerce functionality. A range of payment gateways and shipping options are available with this, and automated invoicing comes as standard. This also comes with a host of possibilities for additional functionality such as Events Calendars and ticket sales via off-the-shelf plugins. We can also build bespoke plugins if nothing is available out there.

Our second package is purely bespoke so please see the Software Development section below. We have built complex online sales systems for a range of organisations, and some include complex visualization tools for bespoke products.

Hosting includes domain, core updates, and SSL certificate.

- 3-page WordPress website with WooCommerce £1250
- Addition pages (if 3 pages designed by us) £50 per page
- Year 2+ hosting £140 per year*
- Additional plugin £50 + cost*
- Bespoke plugins from £250
- Bespoke Ecommerce £POA

*If paid for plugins are used there may be annual license fees charged by the plugin creators.

Software Development

We have built many bespoke online platforms for a range of organisations. These include multi-million-pound manufacturing companies, the NHS, national training organisations, charities and right down to one-man bands.

We are happy to discuss possibilities for your organization, including a cost-benefits analysis that may conclude that we shouldn't go ahead.

We offer ad-hoc work and monthly retainer packages, Retainer packages allow for a 6-month rolling period, e.g. if no time is used in the 1st 5 months, all 6 months of the package could be utilized in month 6.

Retainer packages require an initial 3-month sign-up. After that initial period the package is on a rolling month-by-month basis with no notice period required from the client.

Multi-day packages are available.

- 1-day ad-hoc package £650 per day
- Each day of monthly retainer (min initial 3 months) £500 per month

Holiday Cover

We offer holiday cover for organizations requiring emergency cover for a small team, e.g. 1 developer, in holiday periods.

- 1 week (or part thereof) emergency cover £250**
- Cost per additional hour of work £75

**Emergency cover includes up to 4 hours of required work and being on call during UK office hours.
